Now, what do you consider the emerging publications this time around? So many books are presented and released by lots of authors, from several countries in this globe. Yet, have you to be extra careful to choose among the most effective. If you are perplexed on just how you pick guide, you can extract from the subject to provide, the writer, and also the recommendation.

## **Amazon.com Review**

This is a fun, approachable guide to classical music that uses a light touch, fun facts and humorous anecdotes to help the neophyte make sense of classical music and its origins.

## **From Library Journal**

The dogmatic title of this book is enough to raise the hackles of any music lover. That's unfortunate, because this is a well-designed primer on music for the intelligent but uninformed listener of any age. At 63, Goulding, a Washington newspaper journalist who moved to high government and business posts in defense and oil, attempted to learn something about classical music. Amazingly, he found no helpful sources for the adult absolute beginner. Ten years later, he presents this book for those in the same quandary. The user-friendly format features charts, pictures, and sidebars, simple explanations of musical terms, and descriptions of instruments. The writing flows easily, and the text is readable and browsable. There is nothing new here, but Goulding has done his homework carefully and thoroughly. Recommended for the curious but illiterate music lover.

- Philippa Kiraly, Seattle

Copyright 1992 Reed Business Information, Inc.

## **From the Publisher**

Phil Goulding has written a completely accessible guide to classical music, and the best part is he has the audacity to "rate the composers." If you've ever wanted to know more about classical music, this probably the most approachable guide you could have.

-- Sue Miller, National Accounts Manager
