Review

'This entry in the "Routledge Key Guides" series places a human face on the study of criminology through thoughtful "intellectual biographies" of the discipline's top international theorists from the 18th through the late 20th century.

The theoreticians emerge as groundbreaking human beings in six-page essays written by a distinguished group of 54 contributors drawn from the ranks of an international faculty of criminologists, sociologists, and historians.

What emerges...is an invaluable reference work.' – D. K. Frasier, Indiana University--Bloomington, USA

'Every entry that I have read so far has provided precisely the right balance of contextualizing biography and critical appraisal of the thinker's work. Every entry invites the reader to dive more deeply into the work of these key contributors to criminology. This is a book that will tempt not just new students, but experienced practitioners and academics into new kinds of engagements with this 'rendezvous discipline'. – Fergus McNeill, University of Glasgow, Probation Journal, UK
