From Publishers Weekly

Koontz (*Watchers* , *The Servants of Twilight*) has come up with an intriguing premise: Susan Thornton wakes up in a hospital after a serious car accident with an odd, selective amnesia. She can remember nothing of her job, yet she is stricken with fear when the company she works for is named. And that's not all. Thirteen years earlier, Susan had witnessed the murder of her boyfriend during a brutal fraternity hazing; her testimony sent one of the four men responsible to prison. Now she sees the same men, looking not a day older, walking the corridors of the hospital. Even worse, she has recurrent macabre hallucinations involving them and the decomposing corpse of her boyfriend. Susan doubts her sanity until she stumbles upon a bit of hard evidence right out of one of the "hallucinations." Koontz's resolution, involving a complex Soviet plot, transforms the story from a cozy chiller to political thriller and may not please readers tired of cold war paranoia and propaganda. Others, however, should find this tale satisfying from start to finish.
