Review

"Don't lie to David Lieberman." -- The New York Times, interview October, 1999

"In my more than 20 years of laws enforcement, I've never seen any lie-detecting techniques so uncannily accurate." -- Sheriff Richard Mack, popular consultant and media expert

"You Can Read Anyone," a new book by legendary behaviorist Dr. David J. Lieberman, uses proven psychological techniques to help figure out a person's thoughts and feelings in minutes.

An expert in human behavior and interpersonal relationships, he's written two New York Times bestseller titles on the subject - "Never Be Lied to Again" and "Get Anyone to Do Anything and Never Feel Powerless Again."

Lieberman harnesses specific psychological techniques that can be applied to any person in any situation - with startlingly accurate results. Whether it is in a poker game, a high-stakes negotiation, or a sales pitch, you can tell within minutes whether people are bluffing or telling the truth, bored or interested, an ally or saboteur.

He has also appeared on more than 200 television shows as an expert in the field. He has even gone "head-to-head" on live television, pitting himself against skilled polygraph examiners and scoring just as well every single time.

"'You Can Read Anyone' is not a fluffy collection of ineffective tips. Lieberman offers proven psychological techniques that deliver on their promise to get inside a person's head . . .with eerie accuracy. Of all his books, his latest, "You Can Read Anyone" is superior in every way . . . Dr. Lieberman's insights into human nature are breathtaking and practical. --- Focus Magazine -- review, Focus Magazine
