Amazon.com Review

Finally, many years after Joe McGinniss's famous Fatal Vision, we have a well-documented argument for the other side of the Jeffrey MacDonald case--an argument that the prosecution mishandled key crime-scene evidence, withheld potentially exculpatory material, and even discounted confessions from other suspects. Whether you change your mind about MacDonald's role in the murder of his family, you will learn much about the case that puts it in a new light. For example, the army narrowed in on MacDonald as their prime suspect very early in the investigation, and discouraged the FBI from developing alternate theories. And the judge in the case, Franklin Dupree Jr. appeared to have been biased in favor of the prosecution. Janet Malcolm, the New Yorker writer who wrote The Journalist and the Murderer (about MacDonald's relationship with McGinniss), called this book "quietly convincing."

From Library Journal

Following up on Joe McGinnis's controversial Fatal Vision (LJ 9/1/83), the authors conclude that Green Beret Captain Jeffrey MacDonald was not given a fair trial for the murder of his wife and daughters.
