—Paul Tough, author of *How Children Succeed*

"Engaging...With strong appeal for readers of Daniel H. Pink, Malcolm Gladwell, and Susan Cain, this is a must-have."

—Sonja Lyubomirsky, Professor, University of California, Riverside and author of *The How of Happiness*

“Incredibly important...There is deeply embodied grit, which is born of love, purpose, truth to one's core under ferocious heat, and a relentless passion for what can only be revealed on the razor's edge; and there is the cool, patient, disciplined cultivation and study of resilience that can teach us all how to get there. Angela Duckworth's masterpiece straddles both worlds, offering a level of nuance that I haven't read before.”

—Josh Waitzkin, International Chess Master, Tai Chi Push Hands World Champion, and author of *The Art of Learning*

“A thoughtful and engaging exploration of what predicts success. Grit takes on widespread misconceptions and predictors of what makes us strive harder and push further...Duckworth's own story, wound throughout her research, ends up demonstrating her theory best; passion and perseverance make up grit.”

—Tory Burch, Chairman, CEO and Designer of Tory Burch

“I love an idea that challenges our conventional wisdom and 'grit' does just that! Put aside what you think you know about getting ahead and outlasting your competition, even if they are more talented. Getting smarter won't help you—sticking with it, will!”

—Simon Sinek, author of *Start With Why* and *Leaders Eat Last*

"An informative and inspiring contribution to the literature of success."

—Kirkus Reviews

“Grit delivers! Angela Duckworth shares the stories, the science, and the positivity behind sustained success...A must-read.”

—Barbara Fredrickson, author of *Positivity* and *Love 2.0* and President of the International Positive Psychology Association

"A fascinating tour of the psychological research on success...A great service of Ms. Duckworth's book is her down-to-earth definition of passion. To be gritty, an individual doesn't need to have an obsessive infatuation with a goal. Rather, he needs to show 'consistency over time.' The grittiest people have developed long-term goals and are constantly working toward them."

—The Wall Street Journal
