Amazon.com Review

Book Description: In each section of Michael Cunningham's bold new novel, his first since *The Hours*, we encounter the same group of characters: a young boy, an older man, and a young woman. "In the Machine" is a ghost story that takes place at the height of the industrial revolution, as human beings confront the alienating realities of the new machine age. "The Children's Crusade," set in the early twenty-first century, plays with the conventions of the noir thriller as it tracks the pursuit of a terrorist band that is detonating bombs, seemingly at random, around the city. The third part, "Like Beauty," evokes a New York 150 years into the future, when the city is all but overwhelmed by refugees from the first inhabited planet to be contacted by the people of Earth.

Presiding over each episode of this interrelated whole is the prophetic figure of the poet Walt Whitman, who promised his future readers, "It avails not, neither time or place ... I am with you, and know how it is." *Specimen Days* is a genre-bending, haunting, and transformative ode to life in our greatest city and a meditation on the direction and meaning of America's destiny. It is a work of surpassing power and beauty by one of the most original and daring writers at work today.

From Publishers Weekly

Starred Review. Engaging Walt Whitman as his muse (and borrowing the name of Whitman's 1882 autobiography for his title), Cunningham weaves a captivating, strange and extravagant novel of human progress and social decline. Like his Pulitzer Prize-winning *The Hours*, the novel tells three stories separated in time. But here, the stage is the same (the "glittering, blighted" city of Manhattan), the actors mirror each other (a deformed, Whitman-quoting boy, Luke, is a terrorist in one story and a teenage prophet in another; a world-weary woman, Catherine, is a would-be bride and an alien; and a handsome young man, Simon, is a ghost, a business man and an artificial human) and weighty themes (of love and fear, loss and connection, violence and poetry) reverberate with increasing power. "In the Machine," set during the Industrial Revolution, tells the story of 12-year-old Luke as he falls in love with his dead brother's girlfriend, Catherine, and becomes convinced that the ghost of his brother, Simon, lives inside the iron works machine that killed him. The suspenseful "The Children's Crusade" explores love and maternal instinct via a thriller-esque plot, as Cat, a black forensic psychologist, draws away from her rich, white and younger lover, Simon, and toward a spooky, deformed boy who's also a member of a global network committed to random acts of terror. And in "Like Beauty," Simon, a "simulo"; Catareen, a lizard-like alien; and Luke, an adolescent prophet, strike out for a new life in a postapocalyptic world. With its narrative leaps and self-conscious flights into the transcendent, Cunningham's fourth novel sometimes seems ready to collapse under the weight of its lavishness and ambition—but thrillingly, it never does. From School Library Journal

Adult/High School—Billed as a novel, this Walt Whitman-inspired genre bender works more as three novellas, each one tackling a different form. In the Machine is a ghost story of sorts set in mid-1800s New York City. Young Luke takes a job at the factory where his older brother was killed. He falls in love with Simon's girlfriend and begins to hear his dead brother's voice speaking to him through the violent poundings, whirrings, and clankings. While the 19th-century style of writing evokes a dark, spooky atmosphere, some readers may be put off a little by the slow pace. The Children's Crusade carries readers to post-9/11 New York. Cat, a forensic psychologist, investigates a network of terrorists who use children to commit attacks. Suspenseful and exciting, the tale moves beyond the norms of the typical thriller by dredging up deep issues from Cat's past. Like Beauty takes place 150 years into the future. There, the simulo, or android, Simon and the lizardlike alien Catareen join in a bizarre and terrifying road trip from New York City to Denver. Cunningham does a wonderful job of creating a postapocalyptic society that's frightening and surreal, but also surprisingly believable. The three stories don't connect so much as reflect off one another by way of reusing characters' names and descriptions and revisiting locales. Cunningham's fans might be a little disconcerted by the content at first, but they will find the same flair for language, skillfully developed characters, and themes of identity and longing that make the author's other works so successful.—Matthew L.
