Review

Joseph E. Stiglitz's new book, *The Price of Inequality*, is the single most comprehensive counterargument to both Democratic neoliberalism and Republican laissez-faire theories. While credible economists running the gamut from center right to center left describe our bleak present as the result of seemingly unstoppable developments--globalization and automation, a self-replicating establishment built on "meritocratic" competition, the debt-driven collapse of 2008--Stiglitz stands apart in his defiant rejection of such notions of inevitability. He seeks to shift the terms of the debate. --Thomas B. Edsall

Stiglitz writes clearly and provocatively. He's the kind of economist who can talk about terms such as 'rent-seeking' and the 'euro crisis' and bring readers along for the ride... Stiglitz isn't just writing about people being hurt by inequality, he is also writing about the system itself being in jeopardy and what needs to be done to fix it. --Dante Chinni

Concise and clearly argued.

An impassioned argument backed by rigorous economic analysis. "
