Review

"Clearly formulated starting points engage the reader in more challenging concepts and interesting lines of enquiry, contextualising the many perspectives surrounding each topic. This well researched treasure chest of quotes, references, and examples illustrates an insightful text which the author, himself with decades of experience as a transcontinental practitioner, has enriched with personal reflections that in turn allow the reader to do the same."-Natasha Barrett

Curtis Roads' book is a kind of prism that reevaluates the field of music composition in the light of the new technologies of the 21st century. He builds a thousand bridges between different approaches to attributes like pitch, rhythm, time scales, and even sonic narratives in order to help us to understand present music practices." -Horacio Vaggione, composer, Professor Emeritus, the University of Paris VIII

"A rich and enjoyable survey for the computer musician, ranging from the objects of compositional manipulation to the performative aspects of the shaping of sensory experience. This book will be of interest not only to the electronic music composer, but also to the performing musician, and the general reader interested in the process and principles of musical design." -Elaine Chew, Professor of Digital Media, Queen Mary University of London

"[I]f you want a great overview of just about any aspect of the field of electronic music, you'll find it in this book. Clearly written, with a minimum of mathematics, it's the kind of book you can refer to time and time again."--SoundBytes
