From Booklist

This volume in the Greenwood History of Modern Nations series gives a detailed look at Myanmar from 5000 BCE to the present. Covering the continuous series of conquerors—from the Pyu in 100 BCE, to the Mongol conquest of Kublai Khan in 1287, to the modern subjugation to Great Britain and later Japan—the succinct narrative also treats the tumultuous political history of the former Burma since its inception as an independent nation in 1948. The work includes an informative time line, an excellent index, and a sound table of contents. This history manages to be readable, brisk, and an excellent source of information. Recommended for larger college and university collections. --Ann Welton
