Review

The author should be applauded for the manner in which he is able to successfully combine philosophical investigation with empirical research. The frequent citing of original sources, especially those of Kant, as well as a rich collection of endnotes, make this volume an important contribution to Early Modern Philosophy and Enlightenment studies. But perhaps most important, this is a text that should resonate with any member of the educated citizenry who perceives the discrepancy between Enlightenment ideals and current realities and is deeply troubled by the current state of our world. David W. Rodick, *The Review of Metaphysics*
