Disabled Village Children: A Guide For Community Health Workers, Rehabilitation Workers, And Families By David Werner as a fashion to recognize it is not offered in this site. By clicking the web link, you could locate the brand-new book to review. Yeah, this is it!

Review

At the Center on Disability Studies at the University of Hawaii, we use Disabled Village Children to teach teachers and family members how to support the related services needs of children with severe disabilities... The book works well for us because it supports simple English with wonderful drawings. Everyone whom we train speaks English as a second language, and everyone appreciates the pictures that illustrate the written concepts. The book clearly explains the most common disabilities and provides good examples of interventions that can be done using locally available materials. We have made wooden and PVC equipment adapted from designs in the book, and used many of the ideas in the book to support the needs of children on very remote islands. The ideas are creative and address basic needs of children with disabilities all over the world. --Katherine Ratliffe, PhD, PT. , Center on Disability Studies, University of Hawaii

Disabled Village Children is a powerful, engaging, and readable reference for (developing world) health and rehabilitation workers. It provides ideas and techniques relevant for the novice and the veteran, as well as for the interested observer... The power of Disabled Village Children derives from its simplicity as well as from its recurring theme of a "bottom-up" approach to health and rehabilitation in rural communities. --Marc Krizack, Rehabilitation Consciousness

Disabled Village Children is the benchmark manual on community-based rehabilitation... (Hesperian's) new series of books on early intervention for children with disabilities are beautiful as well as extremely useful. -- US Agency for International Development

About the Author

David Werner was a co-founder of the Hesperian Foundation, and is currently co-founder and director of HealthWrights, and a visiting professor at Boston University International School of Public Health. A biologist and educator by training, he has worked as a health activist for the past 40 years in village health care, community-based rehabilitation, and "Child-to-Child" health initiatives in the Third World, mainly Mexico.

Werner has worked in more than 50 countries helping to facilitate health workshops and training programs, and has been a consultant for UNICEF, WHO, UNDP, and the Peace Corps. He has received awards and/or

fellowships from the World Health Organization, the American Pediatric Association, the American Medical Writers Association, and the MacArthur Foundation.

DISABLED VILLAGE CHILDREN: A GUIDE FOR COMMUNITY HEALTH WORKERS, REHABILITATION WORKERS, AND FAMILIES BY DAVID WERNER PDF
