Review

'This is an outstandingly good book, which succeeds on many different levels. The book is exceptionally well structured and well written. There is so much in this book for so many types of scholars of International Relations. I am certain that this book will be seen over time not only as one of the most intellectually impressive mergers of theory and history in the field, but also as a massive advance on US-style neo-realism. I thoroughly enjoyed reading this book, not least because I became fascinated with the argument, and found myself nodding in admiration as the authors pulled off the feat of bringing all the elements together into a powerful and intellectually impressive discussion of the types of international system found in world history. This is one of the most important books published in the last decade and for intellectual sophistication it leave neo-realism US-style standing, but also drowning.' *International Affairs* 76:4 (2000) 833-4.
