Review

From the reviews:

"A strong recommendation for any book in one's own field is to see it written the way you would have written it. This is certainly the case here. If you are a researcher or a teacher in laser cooling and trapping or a related field of atomic, molecular, and optical physics, then this is a must buy text for your bookshelf. And buy one for your students too, because your copy will inevitably disappear." *The Physicist*

..."For its intended use, which is to guide newcomers into the field of laser cooling and trapping, the book does a superb jobThe book is well placed to evolve with the field for many years to come." *Physics Today*
